SAMPLE PROJECT

CRM Products

List of top 5 CRM solutions that businesses can start with.

1. Freshdesk
2. Insightly
3. Zoho CRM
4. Salesforce
5. Infusionsoft

Freshdesk

SAMPLE PROJECT

- Freshdesk simplifies work for your **agents**.
- Every email, feedback, chat, or call that comes in can be **converted into tickets**

- **Prioritize** every ticket based on the keywords
- Assign every ticket to a specific agent and group so there is **no confusion** about who should be working on which ticket
- Example - Ticketing System, 3rd party apps for extending a company's support capabilities.

Insightly

SAMPLE PROJECT

- **Manage contacts**, as well as link address books, tasks, leads and email together
- Gives you the complete contact management picture whether you're in the office or on the go.

insightly

- Mobile CRM app puts contacts at your fingertips
- **Adds social profiles** and **profile pictures** from popular social networks when contacts are added to Insightly.

Zoho CRM

SAMPLE PROJECT

- Helps your development, Configuration and testing **teams work together** to provide a unified customer experience.
- By integrating with 10 different Zoho apps

- Reach your customers **across any channel**.
- Plan, measure and **manage your progress**.
- **Personalize your CRM** to work the way you do.

Salesforce

SAMPLE PROJECT

- It has a **variety of products** for companies of different sizes and for specific industries.
- Helps to **sell product faster**, increases revenues and decreases costs.

- **Connect 1-to-1** with customers on social, mobile, and more
- **Monitor and manage** your business anytime, from anywhere.

Infusionsoft

SAMPLE PROJECT

- **Integrates** with thousands of apps at one place
- A timesaver

- All your contacts, all in one place
- Helps us to create web pages.
- It also has a calendar, task management and email integration.

ARAVO – CRM Platform

- CRM solutions for on-boarding suppliers all over the globe
- Creating Workflows, surveys and pages
- Configuration of forms, fields and condition logics
- Creating Validation Rule
- Gathering requirement from client and serving them
- Working on Demo and Production Environment
- GSL Generated
- Extract Ad-hoc report using GSL
- Process state of each process
